

LONG-LASTING SAFETY GRIP SOLUTION FOR YOUR REFRIGERATED TRAILERS

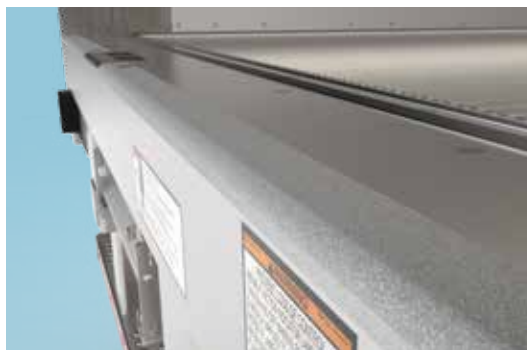

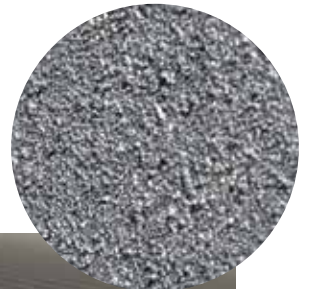

Exclusive to Great Dane and standard on all 2025 Everest models with roll-up and side doors, SLIPNOT products transform metal surfaces into high-friction zones, mitigating slips and falls that last longer than traditional safety grip solutions. SLIPNOT helps to minimize injuries caused by slips and falls, creating a safer working environment and less downtime.

BENEFITS THAT GO BEYOND SAFETY

Enhanced Durability: SLIPNOT's safety grip protection lasts significantly longer than traditional anti-slip solutions and is **backed by a 15-year warranty**.

Streamlined Maintenance: Less time spent on replacing parts means more time dedicated to operational excellence.

Reduced Inventory Needs: eliminates the need for constant safety grip tape stocking and replacement, saving time and helping fleets increase productivity.

Unlocking Value

The safety and well-being of your drivers is a top priority. With SLIPNOT, you provide them with protection and safety that lasts for the long haul, while reducing cost and complexity in your maintenance operations.
